

## *Brown County Department of Public Safety*

**755 Mount Orab Pike  
Georgetown, Ohio 45121**

We need your help with completing our Hazard Mitigation Plan. The Plan is open for public review until Friday, April 7, 2023. This is your opportunity to have input with the content of the plan.

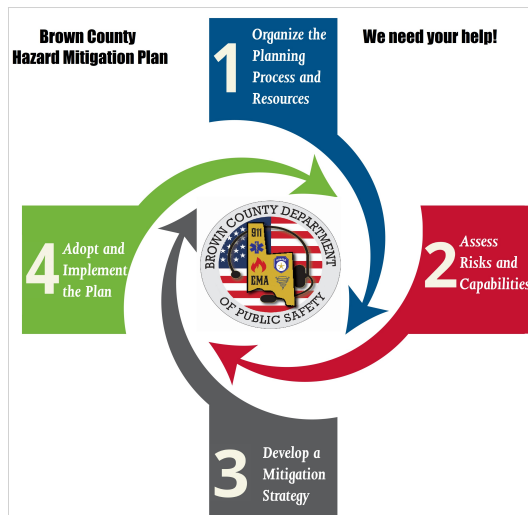

Brown County was awarded a Pre-Disaster Mitigation Grant to update the County's Hazard Mitigation Plan. This update is required by FEMA every five (5) years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update.

This is the final piece needed to submit our plan for Federal approval.

Visit the web hosted plan at: <https://burtonplanning.com/brown-hmp/>
